

Statue of Responsibility Monument Endorsements

“For many years now, Viktor’s idea to build the Statue of Responsibility has been discussed. I hope that people see that this is the right time for the monument to be built. I hope that people understand the meaning behind the monument, behind responsibility, and help to see that it gets built.”

Eleonore Frankl, widow of Dr. Viktor E. Frankl, member, International Honorary Advisory Council, Statue of Responsibility Foundation

“Having known Prof. Viktor Frankl personally for more than a decade of his great life, I hope that every citizen, every woman or man who feels responsible to create a better world for our children will support the Statue of Responsibility Project with all her or his power. Daniel Bolz and his team may be the only group to have the will and energy to realize the creation of this monument which will help us to care about the future of our planet and its people.”

Harald Mori, President, Viktor Frankl Medical Association, Vienna, Austria

“I am convinced of the nobility of this cause.”

Dr. Huston Smith, author, The Religions of Man and The Illustrated World’s Religions

“The Statue of Responsibility is an irresistibly compelling project that deserves to take its place on the West Coast, and by doing so, will harmoniously balance the Statue of Liberty on the East Coast.”

Mark Victor Hansen, Co-author, Chicken Soup for the Soul

“Liberty and Responsibility are twin pillars of freedom that need each other. The time has come to augment the Statue of Liberty on the East Coast with a Statue of Responsibility on the West Coast. Why? Because it is time to promote human responsibility.”

Michael Levine, author, Broken Windows, Broken Business

“I support the creation of a Statue of Responsibility because I see it as the natural and essential ally of our Statue of Liberty.”

George S. McGovern, Retired U.S. Senator, past presidential candidate and UN Ambassador

“Without personal and collective responsibility, there can be no lasting democracy, no real freedom. The Statue of Responsibility is an idea whose time has come!”

Dr. Alex Pattakos, author, Prisoners of Our Thoughts: Viktor Frankl’s Principles at Work

“Just as the Statue of Liberty on the East Coast reminds all who enter New York Harbor of the great sacrifices that have been made to ensure the personal freedoms we all cherish, the Statue of Responsibility on the West Coast will remind all who see it of the personal responsibility that is required to preserve those freedoms.”

Jack Canfield, Co-author, Chicken Soup for the Soul

“Liberty and Responsibility are twin pillars that need each other. The time has come to augment the Statue of Liberty on the East Coast with a Statue of Responsibility on the West Coast. Why? Because it is time to promote human responsibility.”

Michael Levine, author Broken Windows, Broken Business

“That statue would remind us of the responsibilities that all human beings should assume by virtue of their being human.”

Howard E. Gardner, Hobbs Professor, Harvard
